

Group Name: Nights Watch

Group Members:

Andrew Denewellis
Anthony Frock
Galal Chamma
Sean Epley

Communication Channel: Discord

Trello Board / Github Project Boards: Github Project Board associated with our github repo:
<https://github.com/GalalChamma/FinalProject-Group4/projects/1>

Github Repo: <https://github.com/GalalChamma/FinalProject-Group4>

Lowest Grade: B

Time Management: Work up to deadline

Leadership:

Andrew Denewellis

- **Will you rotate this responsibility and if so, how do you plan to do so?**

Leader will be responsible for getting the team together and making sure that the project development is on time. This title will not be rotated, which will make things less complicated. Project development will be divided evenly between the team members, therefore the leader will not have additional responsibilities

How do you plan to handle the situation if someone does not meet expectations? Has everyone agreed to this strategy?

The first step is to talk with the person and see what might be keeping them from completing tasks. This will allow time to correct and move forward. If nothing changes the rest will just take the extra workload and let the professor know on project submission.

List your project roles:

Project Leader: Andrew Denewellis
Front-End Programmer - Galal Chamma
Back-End Programmer - Sean Epley
Designer - Anthony Frock
