

Group 4 - Design Sprint Day 2

- Goal of the App:
 - The goal of our website (CheckFlix) is to give users with no subscriptions access to information regarding new movies and shows.

- Generated Feature List:
 1. Search bar to search for movies by title name or director's name
 2. Card view on homepage that combines movies and shows in their corresponding categories.
 3. Filter option to filter movies and shows based on maturity rating, year released, type, duration, country of release.

- Solution Sketches

THE HOMEPAGE WILL DISPLAY A LISTING OF AVAILABLE GENRES THAT ARE SEARCHABLE.

MAIN PAGE. HAS TOP TASK BAR FOR THE SEARCH OPTION. THE THE REST OF THE PAGE DISPLAYS A VISUAL BLOCK LIST OF SEARCHABLE GENRES THE USER CAN CLICK TO LEAD TO A LISTING OF ALL MOVIE/TV IN THAT GENRE.
