Feature	User Story
Genre Specific List	As a User, I want to view a list of all titles currently on Netflix under a specific genre so that I don't have to subscribe to Netflix before I know what's available.
Genre Refined Filter	As a User, I want to be able to filter a list of titles in a specific genre so that I can view a smaller, more refined list of what I am looking for.
Search	As a User, I want to be able to search for specific titles so that I know if the movie / tv show I want is on Netflix or not.
Search and Filter	As a User, I want to be able to search for all the titles my favorite actor is in and filter the list to a smaller refined list so that I can easily find movies in a genre or year my favorite actor was in.
New Additions List	As a User, I want to be able to see a list of all the new additions to netflix this month so that it isn't filtered by suggestions and ratings like on Netflix.
Easy redirect to Netflix	As a user, I want to be able to access the title I choose directly on Netflix, so I do not have to search for the title separately on Netflix.
